ReThink911 Launches Global Public Awareness Campaign for 12th Anniversary of 9/11

The ReThink911 Campaign, sponsored by Architects & Engineers for 9/11 Truth, is a global public awareness campaign launched this week in an effort to spark a new investigation into the events of September 11, 2001.

On a 54-foot-tall Times Square billboard and a variety of transit and outdoor advertising in Boston, Washington, DC, Chicago, Dallas, San Diego, San Francisco, Toronto, Ottawa, Vancouver, Sydney and London, accompanied by citizen activist events all over the world, the campaign poses the question, “Did you know a 3rd tower fell on 9/11?”

To this day, many people are not aware that a third skyscraper, 47-story World Trade Center Building 7, mysteriously collapsed in seven seconds a few hours after the World Trade Center Twin Towers on September 11, 2001. Many reputable and credentialed technical professionals challenge the official report on this building’s collapse by the National Institute of Standards and Technology (NIST). The ReThink911 campaign calls for a new investigation to answer questions about the collapse of Building 7 and the Twin Towers 12 years ago.

“The official story of what happened at Ground Zero simply cannot be true,” said Architects & Engineers for 9/11 Truth Founder Richard Gage. “More than 2,000 professional architects and engineers, along with family members of victims and thousands of concerned citizens, believe a truly independent investigation is needed both as a matter of national security and as the key to justice for those lost on 9/11.” Gage is a San Francisco Bay Area architect and member of the American Institute of Architects.

In support of the public awareness campaign, ReThink911 has also commissioned the polling firm *YouGov* to conduct a national poll measuring how much people know about the collapse of Building 7 and whether they think a new investigation is warranted. The results of the poll will be released on Monday, September 9. The international ad campaign and poll have been financed by more than \$225,000 in donations from over 2,000 supporters of ReThink911.

##

Architects & Engineers for 9/11 Truth is a nonprofit organization dedicated to exposing the falsehoods and revealing truths about the collapses of the 3 World Trade Center buildings on September 11, 2001. The organization is committed to:

- *Dispelling misinformation with scientific facts and forensic evidence*
- *Educating and motivating thousands of architects and engineers and the public at large*
- *Procuring a truly independent 9/11 investigation with subpoena power*
- *Achieving mainstream media coverage of these pressing issues*
